Super.

Kelly – let me know if there is anything in place for the Navajo.

Thanks.

Is the state providing drinking water to residents (not the Navajo) that might have wells that are impacted?

In New Mexico – EPA is only providing water for livestock. We assumed that responsibility from San Juan County on Monday, Aug 10 using our emergency response contractor. We have issued a \$500,000 work assignment to the contractor and completed 4 distributions on Tuesday, Aug 11.

David,

Could you expand on the provision of water to the public and for other purposes? The Administrator would like to have a good grasp of the services we are providing to the residents and tribes (Navajo) in New Mexico. Even some facts as to when we started providing water, etc.

Thanks.
